SATPRO_Audio

SATPRO AUDIO

The SATPRO is equipped with a local speaker to alert users of serious errors and various other important events. You can access the audio control window from the menu.

Audio Controls:

- **Test Sounds:**
    - **BEEP Button:** Use this button to test the beep sound.
    - **CLICK Button:** Use this button to test the click sound.

- **Volume Control:**
    - **VOL Command:** Adjusts the audio volume. The range is from 0 to a maximum of 4000.
    VOL <value>
    Example: To set the volume to 2000, you would enter:

    VOL 2000

- **Tone Adjustment:**
    - **TONE Command:** Adjusts the pitch of the sounds. The default value is 140, but you can adjust it from 30 to a maximum of 200.
    TONE <value>
    Example: To set the tone to 100, you would enter:

TONE 100

These controls allow you to customize the audio feedback from
the SATPRO to suit your preferences and ensure you are
promptly notified of any critical events or errors.
